DETAILED ACTION

Claims 1-59 are pending.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-13 are rejected under 35 U.S.C. 102(b) as being anticipated by the first reaction in Scheme 1 page 3170 of Cao et al.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-59 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claims 1 and 2, claims 14 and 15, claims 27 and 28, claims 40 and 41, claims 53 and 54, compound of formula (I) is made by reacting compound (II) with compound (III) as claimed in the first claim wherein it appears that X and Y groups are removed during the reaction to form compound (I) which does not contain X and Y groups. In the next claim, a further step is not necessary to remove the Y group from the so-called coupled amine. What is the relationship of the compound of formula (I) and the coupled amine?

No claim is allowed.
